- Key Messages
 - Medicaid membership as of September 30, 2021 was 56,056, which represents an increase from the prior quarter of almost 4k members.
 - In Q3 2021, Trillium Medicaid delivered an underwriting gain of \$3.4M, roughly \$8M lower than the same period in 2020. Contributing factors of change include:
 - Return of higher utilization
 - The disproportionate amount of prior period development recognized in Q3 2020 related to conservative claim reserves in the early stages of the pandemic
 - Higher enrollment and lower G&A were both favorable, but offset by the impact of business mix whereby Tri Co. now makes up 34.5% of the total population, but projected to perform almost 1,000 bps worse
 - Trillium's balance sheet is strong with risk-based capital above 1,800%.
 - As of Q3 2021, the MLR rebate payable accrued for CY2020 was \$6.5M.
