RAC – Report by Char Reavis

- We had our last meeting at McKenzie Bridge.
- We added one rural advisory member.
- We had a great discussion on needs of the McKenzie Bridge rural community. They have unique set of challenges because they are very isolated from services.
- One of their needs was around disaster planning. They need a plan to get medications and oxygen to people who are isolated and unable to get into town during a disaster or snowstorm like we had in February.
- Advantage Dental will be doing dental screenings and treatments in the school there next year.
- Cell phone and internet service is very poor in the area.
- They also need mental health therapists.

Trillium – Report by Debi Farr

Trillium co-sponsored a Hope Symposium for the Lane County Health and Human Services Division (over 600 staff) and another symposium for the public. Rick Miller from Arizona State and Antwone Fisher presented about the science behind hope. Bottom line...kids need hope to change their life.

Our CCO 2.0 RSA is due today. We asked for Lane, partial Linn, Reedsport, and Portland. Letters of Support are due by May 15th.

We should hear the outcome by July 21, 2019.

6. CAC Conference Report Out –
