Medicaid Pharmacy Changes for 2018

This update contains changes to the Trillium Community Health Plan (Trillium) Medicaid benefit.

NEW PRIOR AUTHORIZATION REQUEST FORM FOR PRESCRIPTION DRUGS

Effective January 1, 2018, the attached form will be required for all medication prior authorization (PA) requests. On January 1, this form will be available online at TrilliumOHP.com.

COVERMYMEDS

Effective January 1, 2018, Trillium will be partnering with CoverMyMeds for authorization requests. Providers are encouraged to visit go.covermymeds.com/EnvolvePA to learn more about CoverMyMeds and to create a free account. Once an account is created, a provider can start a PA request, or complete any PA request started by one of the more than 62,000 pharmacies that use CoverMyMeds.

CHANGE TO OUT OF AREA COVERAGE

Effective January 1, 2018, both pharmacies and prescribers will need to be registered with the State of Oregon and have a DMAP number in order for a member to fill a prescription. If a member attempts to fill a prescription at a pharmacy without a DMAP number and/or written by a prescriber without a DMAP number, the pharmacy will need to call Trillium to request an exception based on urgent need. Not all requests will be approved.

Trillium Medicaid Pharmacy Criteria Updates

Criteria Name	Comments	Current Criteria
Direct Acting Antivirals (i.e. Mavyret)	New criteria will be effective and posted on the website 1/1/18. F2 will now have coverage, see criteria when posted for details.	Trillium Medicaid Formulary Website
