

**CCO Advisory Councils
Report to the Governing Board
March 2015**

Community Advisory Council

The CAC meet on Monday, March 23rd at Lane County Youth Services. Jocelyn Warren, Lane County Public Health Manager was introduced as the newest CAC member.

Tara DaVee reported that the Governing Board met with representatives from Centine to discuss security issues.

Debi Farr reported that Trillium had been awarded the Reedsport contract. She also reported that Trillium is pursuing discussions about transportation on the coast and hoping to increase access to medical transportation. Debi reported on membership and several pieces of legislation, as well as reminding attendees about the next Trillium University with Cliff Coleman.

Char Reavis reported that the RAC had a very productive meeting to look at the data from Western Lane County and start to identify areas to address. One big concern is mental health and the other is transportation.

Kay Metzger gave a report from the Transformation Center. She reminded members that the CAC Summit, June 3 and 4th at Sunriver Resort, is now open for registrations. She then shared information about the CCO's progress and how to access that information on line.

The Prevention and Health Equity Committees have been working on a proposal to help young Trillium members to stay physically active through the summer. "Project Plunge" is a proposal that would allow children who are Trillium members free visits to the public pools in Eugene, Springfield and Cottage Grove. This would be a pilot project to be implemented this July and August.

The Member Engagement Committee has been busy! Eight members participated in a focus group about the Trillium website. Their feedback was very helpful. They also spent a morning in a DHS office asking people to complete surveys and answering questions about Trillium. This

seems like a very effective way to reach Trillium members who we don't usually hear from. The committee will be looking at refining the questions on the survey so that we are getting information that is helpful. The committee is open to suggestions/requests from Governing Board members.

The meeting closed with a discussion about the Community Health Assessment. Jennifer Webster gave an overview of the process and described how that CAC will be involved.
