

## **CCO Advisory Councils Report to the Governing Board May 2016**

### **Community Advisory Council (CAC):**

The Community Advisory Council (CAC) met on Monday, May 23<sup>rd</sup> at Lane County Youth Services. The CAC decided that they will NOT meet in August. The CAC was pleased to have special guest Chris Ellertson. Chris gave the Trillium report. Lucy Zammarelli gave a Transformation Plan update. She reported that the second Lane Equity Coalition event will be held on June 14<sup>th</sup>, from 5:00-7:00 at Lane Community College. The program will include Coalition updates, a viewing of one segment of the Unnatural Causes documentary called "When the Bough Breaks", which examines the impact of racism on birth outcomes in African American families. Over 150 people have registered to attend.

The RAC report included the news that KVAL television aired a couple of news shows that focused on healthcare for rural communities. Char Reavis, RAC chair, was interviewed and did a great job.

Rick Kincade reported on the CAP meeting. He shared that Trillium will be using a new company for making determinations about imaging. This may impact the approval rate as the new company has strict guidelines, but patients still have the opportunity to appeal, if necessary. The CAP also discussed the CCO Incentive Metrics. Trillium will report their progress to the CAC later in the year. The information is also online and Leah agreed to send out the website information.

Jocelyn Warren gave a short presentation on The Sustainable Relationships for Community Health (SRCH) Grant. They have received another year of funding to address a closed loop referral process and are opening up to other entities such as the clinic in Oakridge and YMCA. The website for classes can be found at: [www.lanelivingwell.org](http://www.lanelivingwell.org). They have hired a permanent SRCH Program Coordinator to keep the program on track. There are four classes in the Living Well with Chronic Conditions and 4 classes in the Living Well with Diabetes. Each class is a six week program.
